BANK OF HARDINSBURG AND TRUST COMPANY CLOSES ITS MOST SUCCESSFUL YEAR

Has Combined Deposits of \$1,001,000 and Assets of Over \$1,200,000. Stockholders Hold Annual Meeting.

The truly prosperous condition of the citizenship of Breckinridge and adjoining counties is reflected in the unprecedented, prosperous condition of The Bank of Hardinsburg & Trust Company disclosed at the end of its fiscal year, which closed December 17th, on which date the regular annual meeting of its stockholders was held in the Directors room of the institution. With \$1,001,000.00 on deposit in the banking and trust department and with combined assets of over \$1,200,000.00 indicates that the institution easily maintains its supremacy in this section of the State of Kentucky, which is solely due to the efficient management of the institution, which is unwaveringly conducted upon a basis of safe and sane banking methods, rendering absolute security to the many patrons of each department its management of their funds and property, and, at the same time, provides the way for the institution, at all times, to aid and encourage legitimate enterprises among the people of the county. The old officers were re-elected. The directors and officers for the ensuing year are: M. D. Beard, President and Director, C. V. Robertson, Vice President and Director; D. D. Dowell, Cashier and Director; B. F. Beard, Assistant Cashier and Director; George E. Bess, Manager of the Trust Department and Director; Willis Green, Director; Lewis J. Perkins, Director; Jack Jolly, Director; Thomas O'Donoghue, Director; L. D. Jones, Director; P. M. Beard, Director; H. M. Beard, Director; Dr. A. M. Kincheloe, Director.

LIVING IN RAVENNA FOR THE PRESENT TIME.

Former Chief of Police George Mullen and Mrs. Mullen left Wednesday of last week for Ravenna, Ky., where they will take up their abode indefinitely. They will live with their son, Roy Mullen, who is employed there with the L. & N. railroad, and if conditions are favorable Mr. and Mrs. Mullen may make this their permanent residence.

TOBACCO PRICES CONTINUE FAIR

Good Tobacco Still Brings Fair Prices. Much Inferior Weed Has Been on Market Lately

Prices on the best grades of tobacco continue to hold up at the Cloverport Loose Leaf house, but a good deal of inferior tobacco has been on the market at the last two sales hence the averages have not soared as high as in the sales during early season. Many of the farmers were not satisfied with their sales and so a good deal was rejected.

On Tuesday of last week the general average of the sales was \$16.00. There was a poor lot of Burley and it averaged \$19.34. Pryor was the same as usual averaging \$15.87; the highest on one sucker was \$31.00. All together the sales of Saturday amounted to \$3,249.57 for 32,840 lbs.

The second sale of last week was on Friday when the average ran to \$16.40. The average for Pryor was \$15.07 and Burley \$21.88. The highest on Pryor leaf was \$36 and trash \$26. The best Burley brought \$54. Most of the tobacco on the floor Friday was the common ends and about 30,000 lbs. was rejected. However at both sales the best grade tobacco brought satisfactory prices.

VISITING THEIR DAUGHTERS DURING WINTER MONTHS.

Mr. and Mrs. J. K. Drinkwater have closed their country home in Tobinsport, and left last Wednesday evening for Charleston, Mo., where they will spend Christmas and part of the winter with their daughter, Mrs. A. J. Drinkwater, and Mr. Drinkwater. Before returning in the spring, Mr. and Mrs. Drinkwater will spend some time with their daughter, Mrs. T. S. Wane, and Mrs. Wane, of Columbus, Ky.

CHRISTMAS SERVICE SUNDAY EVE

Choirs Render Xmas Music. Rev. Williams Tells Story of "The Other Wiseman."

The spirit of the Yuletide reigned in Cloverport on Sunday evening when a union service was held in the Methodist church and the story of the Savior's birth was told in song and sermon.

The members of the Baptist and Methodist church choirs under the direction of Miss Margaret Burn, organist, accompanied by H. M. Beheg on the violin, gave a most delightful program of Christmas music.

The Christmas message in sermon was given by Rev. T. N. Williams, of Louisville, pastor in charge of the Lucile Memorial Presbyterian church in this city, who related the beautiful story "The Other Wiseman" by Dr. Van Dyke. Rev. Williams told the story very effectively in his own words, and he left his hearers with a fuller conception of the true meaning of Christmas.

The program of the evening was led by Rev. J. R. Randolph, of the Methodist church. There was a large audience filling the auditorium and Sunday school room.

FRED D. PIERCE IS MADE NAVAL COMPASS INSPECTOR IN BOSTON.

Fred D. Pierce, who heretofore has been chief of wireless operator at Bar Harbor, Me., has lately had another promotion which places him in the front ranks of the Radio men. Pierce is now the Naval Compass Inspector for the First Naval District which embraces twelve stations between Boston and Bar Harbor. He was selected for this place out of one hundred men, and his headquarters are in Boston.

Pierce is considered an expert in compass installing. At one station under his inspection is one of the largest, if not the largest, compass in the Navy Department. It locates ships 600 miles at sea, and is a very powerful machine.

Pierce joined the Navy two years ago, and he has proved wonderfully skillful in the Radio service.

Announcement

¶ We wish to announce that we are just closing the most successful year of our institution. We realize that our phenomenal results could not have been attained by the efforts only of the officers and stock-holders of our organization.

¶ We know that our accomplishments are due primarily to the fact that we have a GOOD, STRONG FINANCIAL INSTITUTION based on a COURTEOUS, STRONG and SERVICEABLE FOUNDATION, coupled with the unlimited cooperation of our large corps of patrons which has made our showing wonderful.

EXCERPTS FROM OPINION OF COURT OF APPEALS IN FRAIZE WILL CASE

Judge Sampson Says Evidence Was Insufficient to Show Mr. Fraize Mentally Incompetent—Tribute Paid the Deceased.

Court of Appeals in reversing the Judgement of the Breckinridge Circuit Court, setting aside the will of the late Frank Fraize, says in its opinion, written by Judge Sampson, that the Trial Court should never have let the jury consider the case, because the evidence insufficient to show that Mr. Fraize was incompetent mentally to make a valid will.

The Court pays a high tribute to the business career of Mr. Fraize and to his wife, and states that there could be no better evidence of the mental soundness of Mr. Fraize than the fact that he left all of his property to Mrs. Fraize and their son, providing that upon the death of either the survivor should take all the property.

Excerpts From The Opinion.

Perhaps in the entire history of the Courts of this County, no trial ever attracted the attention and interest of the people generally, as the effort upon the part of the nieces and nephews of the late, Frank Fraize, of Cloverport, to set aside his will, which he made in April, 1916, and the codicil thereto written in September, 1916, upon the grounds that Mr. Fraize was not possessed of legal testamentary capacity, and that in making said will

and codicil, he was unduly influenced. In July 1918, a Special Term of the Circuit Court was called and the trial held. A jury was permitted to pass upon the questions at issue and nine of the 12 jurors returned a verdict setting aside the will. From this Mrs. Fraize appealed, and on the 12th day of December, 1919, the Court of Appeals, by Judge Sampson, handed down an opinion, refusing to permit the judgement of the lower court to stand and giving Mrs. Fraize the

entire estate, as provided for by Mr. Fraize in the codicil to the will. Commenting upon the testimony adduced by the contestants the court said:

"The contestants introduced thirty-five witnesses, of which number three were doctors, the others laymen. None of these doctors was the personal physician of Mr. Fraize, nor had they been closely associated with him, and each gave it as his opinion on the facts stated in the hypothetical question propounded that Mr. Fraize was mentally incapable of taking a rational survey of his property, or knowing the natural objects of his bounty, or of disposing of his property according to a fixed purpose of his own. In the hypothetical question are included a good many facts which are not borne out by the evidence.

"Aside from the evidence of the doctors, which is chiefly confined to their opinions as men learned of their profession, appellees called in several nonexpert witnesses, all of whom were personally acquainted with the testator and some of whom were associated with him more or less, up to the time of his last sickness. A few of them however, had no intercourse with him more than a casual meeting on the street or about town, with little or no opportunity for conversation with him, or to observe his acts and conduct. A large number of these nonexpert witnesses expressed no opinion whatever as to the testamentary capacity of Fraize, at the time of the making of the will and codicil, while others did give their opinion.

Continuing the Court Said:

"The few facts which they relate (Continued On Page 2)

TEACHING FOREIGNERS AMERICAN WAYS.

A Work Thata Being Carried On by
Department of Agriculture.

Earnest effort to acquaint foreigners in this country with American ways of thought and living is being made this year by various agencies, including the extension service of the U. S. Department of Agriculture and the State agricultural colleges. Within the territory of nearly every county or home-demonstration agent are to be found a greater or less number of people, living quite to themselves and speaking their native language almost entirely. These people from other lands are usually very appreciative of any effort made to teach them American ways, and they welcome instruction in the cooking of American foods, the making of American clothes, and even the growing of vegetables that thrive here.

In Lake Charles, La., is a Mexican community, which is as typically Mexican as if it were located in Mexico. The home demonstration agent in that parish has been endeavoring this year to bring about a change in living conditions. A sewing class has been organized and garden work encouraged. Previously, only two people in this Mexican community had ever had a garden. Among the things the mothers wished to learn was how to make American cookies. One of the women offered to teach the home economics worker how to make the finest of Mexican hot tamales if she would in turn teach her how to make American pastry. While they learn American cooking and sewing it is hoped that incidentally they will learn not only the American language but American ideas of living as well.

U. S. TO CONTROL SUGAR IN 1920

House Follows Senate in Authorizing Continuance of Sugar Control.

Washington, Dec. 16.—The Government will continue to control the supply and distribution of sugar during 1920. This was assured to-day when the House followed the Senate action and authorized the continuance of the Sugar Equalization Board with virtually its war powers for another year in the hope that the sugar shortage thus could be relieved.

The House vote was 256 to 34, and the bill was passed over the protest of the representatives of the Southern sugar growers. Such action was necessary, because otherwise the board under the law would have discontinued December 31.

Greater powers are provided for the board in the bill of the House authorizing the extension than were agreed to in the Senate. The House agreed to give the board all its war powers of licensing dealers and large users of sugar in addition to the powers of buying and allocating supplies extended by the Senate. This was done at the request of George A. Zabriskie, head of the board, who said otherwise the extension would be ineffective in meeting the situation. Complete power to fix prices was given by both Senate and House. The bill now goes to conference.

Representative Haugen (Iowa), chairman of the House Agriculture Committee, in reporting the bill to-day, declared that the failure of the President to authorize the board to purchase the entire Cuban crop after it was offered to the Government by the producers had contributed largely to present high prices.

An absolute embargo on sugar exports was recommended to-day to the House Interstate and Foreign Commerce Committee by Representatives Dallinger (Mass.) and Elliot (Ind.), but the committee took no action.

MATERNAL ADVICE.

EXCERPTS FROM OPINION OF COURT OF APPEALS IN FRAIZE WILL CASE.

(Continued From Page 1)

(meaning the contestants' witnesses) are so disconnected and many of them so irrelevant as to reflect little light upon the real mental condition of Mr. Fraize. Their opinions, therefore, based upon these Probable facts are entitled to very little weight."

Commenting upon the testimony adduced by Mrs. Fraize, the Court said:

"The executrix and sole devisee, Mrs. Fraize called about twenty witnesses, among them Dr. Clark a personal physician of Mr. Fraize, the other, aside from the widow, Mrs. Cornelia W. Fraize were businessmen and women who were intimately associated with Mr. Fraize for some years next before his death, and who were in the best position of all living people to know the actual mental condition of the testator at the time, as well as before and after the making of the will and codicil. Among this list is the personal attorney for Mr. Fraize prepared both of the testamentary papers and who frequently consulted with his client concerning business matters along about the time of the making of the papers and for some time before. This attorney, Mr. Claude Mercer, says that he prepared the will at the offices of Mr. Fraize at Cloverport, and that it was dictated by Mr. Fraize. These are his words: "Mr. Fraize told me what he wanted done with his property. He said he wanted his wife and son, Fred, to have it all and if one died before he died (Fraize) the survivor should get it all."

The Court then commented upon the testimony of Mr. A. B. Skillman, Mr. William H. Bower and Miss Pauline Moorman, all of whom stated their business relations with the testator and all of whom stated that unquestionably Mr. Fraize possessed legal testamentary capacity. The court also, quoted at length from the testimony of Dr. Clark, who stated positively that Mr. Fraize, for a man of his age (being then about 85 years old) was possessed of an unusual strong and vigorous mentality.

Continuing Further the Court Said:

"Old age alone does not disqualify one from disposing of his property by will. No court has ever so held, yet contestants have little else to intitle their cause to consideration than the extreme old age of the testator and his defective hearing and eyesight, added to his decrepit physical condition which is largely due to his broken hip or limbs. As one grows older his sensibilities are dulled, his eyesight dimmed and his hearing less acute, but this is not mental unsoundness nor are such facts alone entitled to be considered as tending to prove testamentary incapacity."

"His fortune of something more than \$100,000.00 was the result of his own intelligence, industry and business astuteness. He had the reputation of being and was regarded by the citizenship of Cloverport as one of the best, if not the best, business man in that city for about one-half century. The people with whom he dealt had no doubt as to his ability to manage and control his affairs, and they all looked upon him as a man of unusual business acumen. Of course, in his last days he was so enfeebled physically and embarrassed by the loss of his sight and hearing that he could have but little intercourse with the public generally. But to his intimate friends and close business associates he displayed in conversation and business much of the old skill and adroitness which had characterized his business life and easily made him the leader in his line in the county."

"Here the will is entirely rational on its face. The testator had no children or grandchildren. His wife had been his life long companion, faithful and true. A large part of their early fortune came from her father's estate. Fraize used her money as his own and mixed and mingled it with his estate."

"To whom could he have given his property to have better shown his mental soundness than to his wife and son?"

The Court then comments that after the death of his son, Mr. Fraize sent for the same attorney, Mr. Mercer, who had prepared the will in April, 1919, and stated that he desired to make a codicil to his will. The attorney suggested to him that no change in the will was necessary because the original will provided that in case of the death of either his son or wife

"the survivor shall have the entire estate."

Commenting upon this fact the Court said:

"This codicil was dictated by Fraize and was written at his urgent request in spite of the suggestion of the attorney that it was unnecessary, which proves beyond controversy that Fraize had a mind of his own and a fixed purpose to dispose of his property according to a plan of his own. He could not even be influenced by his attorney nor turned from his purpose to make certain and definite that which he feared might be uncertain and indefinite in his will."

On the allegation of undue influence made by the contestants, the Court disposed of that question in the brief statement:

"There was a total absence of evidence of undue influence."

On the verdict of the Jury the Court said:

"The verdict in this case is flagrantly against the weight of the evidence."

CHINA SOON WILL BE A WORLD POWER.

Predicts Prominent Woman Physician of W. F. M. S., Methodist Church.

"Ten years of awakening in China at the present rate will place the Celestial Republic among the world's greatest powers," predicts Dr. Ida Kahn, Chinese woman physician who came to New York recently to attend the International Conference of Woman Doctors. Dr. Kahn, together with another Chinese girl, Dr. Mary Stone, was adopted in early childhood by an American missionary in China, Miss Gertrude Howe, who educated them, finally sending them to the United States, where they were graduated from the medical course at the University of Michigan. They are both not only heads of hospitals now in China, but are also prominent in promoting China's welfare in various ways. Dr. Kahn is in complete charge of a woman's and children's hospital in Nanchang, Kiangsi Province, supported by the Woman's Foreign Missionary Society of the Methodist Episcopal Church. She is a frequent contributor to Millard's Review.

"We are a deeply patriotic people," said Dr. Kahn. "I do not think the world understands us, because we have been taught to stay within ourselves. There is a large faction that would like to fight Japan about Shantung, but all the arms and munitions are in the hands of the government, and the government is bought by Japanese money."

"In Nanchang the Chinese men and women are organizing patriotic societies and collecting money to redeem our resources, especially our railroads, from the hands of the Japanese. The railroad is mismanaged and practically bankrupt, and the Japanese mortgages will soon foreclose. We are trying to raise enough money to save it, but we hope that American capital may be interested enough to take it out of Japanese hands and run it. The Japanese cheat us all the time. We are never safe, but we would have confidence in the American way of doing things."

"Through Central China housewives, working people and school children are making promises never to buy Japanese goods, for the rest of their lives. The shops now show only European and American goods. It was always Japanese, Japanese, wherever one went, before."

"Matters with the Japanese will come to a head some time. And the Chinese are not a cowardly or phlegmatic people, as they have been represented. Little school teachers have been cutting their thumbs and writing in blood a promise to boycott Japanese goods, so aroused are they over Japan's attitude toward China. A nation whose women would do that is not a nation to sit like patience on a monument forever."

"The trouble with China is that she is inarticulate. The people who have leisure to present her case in the foreign papers cannot write, and the people who can write are too busy. After my hospital work was done, I have sat at midnight preparing articles on China for foreign papers. I believe China needs to be introduced to the Europeans, and I do 'my bit,' but my doctor's work must come before my writing."

"We really have more in common with America than you would think at first. Orientals of course are never as free and easy as occidentals. But the Chinese are not sneaky. They are trustworthy and honest, especially in business. Foreign nations are mistaken in not cultivating Chinese friendship, for China is a richer country than Japan, has greater natural resources, and offers a wider field for commercial activities."

Dr. Kahn further stated that Japan had already begun a policy of aggression in Siberia, having landed over 70,000 troops instead of the 7,000 arranged for. "The idea is," said Dr. Kahn, "to cement a Slav-Japanese union which will extend far enough east to include Germany. While China is so located as to be a check to this menace, she would be powerless to act without arms and ammunition."

BODIES OF U. S. SOLDIERS BURIED IN ENGLAND TO BE SENT HOME.

The work of disinterring American soldiers' bodies in England will be started as soon as two officers and fifty-eight men of the Graves Registration Service of the Quartermaster Corps, New York City, who sailed for Southampton, Dec. 16th, on the transport Martha Washington, arrive at their destination.

The detachment, which consists of five masters of sections, seven supervising embalmers, ten technical assistants, sixteen inspectors and twenty conveyers is headed by Capt. W. H. Robertson.

CHILDREN NEED WHOLESOME FOOD

One-fifth of U. S. School Children are Under-Nourished More Care Needed in Their Diet.

At least one-fifth of all the school children in the United States are under-nourished to-day, it has been estimated. This condition is not the result, as in many lands, of lack of food, but comes about because in many cases American mothers are not giving their children the right kinds of food. The right kind is not necessarily more expensive than the wrong kind and oftentimes costs less. An under-nourished child is physically, mentally and sometimes morally below par and shows it in appearance, school work, and conduct.

In order to arouse the attention of parents to the necessity of giving a child proper food, at many fairs home demonstration agents, working under the United States Department of Agriculture and the State agricultural colleges have measured and weighed the children brought to them at their booths. At the Windsor Fair in Connecticut 177 boys and girls were weighed and measured by the home demonstration agent. The majority were from 8 to 12 years of age. Of the 85 boys who were weighed, 43 were underweight. Of the 92 girls, 55 were underweight. Arrangements have been made with the home economics committee of the town to follow up the cases where there were marked signs of malnutrition. The children themselves were much interested and were keen about learning how to gain weight and health. Bulletins on child feeding and suggestions as to changes in diet were received with appreciation.

Talks on proper diet for a child are sometimes given to the children in schoolrooms. In Pottawatomie county Iowa, the home demonstration agent in September talked to 5,029 children in schools on the value of milk, cereals, and vegetables in their diet.

When possible, a second weighing is made several weeks after the first talk, when the children have had time to obtain results from changing their diet. The improvement is marked in those who have followed instructions.

JACK DEMPSEY WANTS \$250,000 TO BOUT WITH CARPENTIER OF FRANCE.

Paris, Dec. 16.—Two hundred and fifty thousand dollars is the amount Jack Dempsey wants to come to France to fight Carpentier. M. Decoin, manager of the Wonderful Sporting Club of Paris, announces that he will pay the price.

A cablegram from Jack Kearns, Dempsey's manager, was received by M. Decoin this afternoon asking for this amount. Kearns says he has received a bona fide offer of a \$350,000 purse for a battle between Carpentier and Dempsey in America. Kearns also ask for the option of a percentage.

M. Decoin wired Kearns that he was ready to guarantee him a quarter of a million dollars and wished to know what percentage was desired. If he receives a satisfactory answer he will leave for Los Angeles immediately to close the contract.

DOG CARRYING LIFE LINE, RESCUES 92.

Animal Swims Ashore Where Boats Could Not Live.

Curling, N. F. Dec. 16.—Passengers and crew of the coastal steamship Ethie, numbering ninety-two persons, were brought ashore on a life line which was run out from the ship by a Newfoundland dog after their vessel piled upon Martin's Point.

Boats could not make the hazardous passage from the stranded steamship. An effort to shoot the line ashore failed when the line became caught. Men did not dare attempt the trip through the waters and so the dog was put overboard. Directed by officers of the Ethie the animal succeeded in releasing the rope and holding it tightly in his teeth fought his way through the breakers to the shore.

With block and tackle the Ethie's crew, aided by fishermen on the shore, rigged a life saving device, using a boatswain's chair for a carriage. One by one in this chair ninety-one of the ninety-two persons aboard were hauled to safety. A baby, 18 months old, was pulled ashore in a mail bag.

The Ethie, which has been engaged in the coastal service between Curling and Labrador ports went ashore last Wednesday during a gale.

PUREBREDS PAY IN POULTRY RAISING AS WELL AS STOCK.

That the value of pure bred males counts as much in poultry raising as in stock raising is shown by the records of three flocks of Leghorns, the data for which have been supplied the United States Department of Agriculture by the North Carolina Experiment Station. Flock 1, the egg production of which is included in these records, consisted of common hens; flock 2 was produced by breed-

ing these hens to common males; flock 3 was produced by breeding flock 1 to a rooster from a high-producing hen. The following year the original flock laid 89 eggs a hen; flock 2 laid an average of 88 eggs a hen; and flock 3 laid an average of 136 eggs a hen. This increase of 54 per cent in one year tells very specifically the benefits of using a purebred male. But the percentages alone do not tell the whole story, for a big proportion of the increase came at a season—May and June—when the production of flocks 1 and 2 was relatively low and the prices were good.

Christmas

*It is Christmas in the mansion--
Yule log fires and silken frocks;
It is Christmas in the cottage--
Mothers filling little socks;
It is Christmas on the highway,
In the thronging busy mart;
But the dearest, truest Christmas
Is the Christmas in the heart.*

GREETINGS.

A merry Christmas!
A merry Christmas is much more than a seasonal greeting when we think of it rightly. The real and true meaning of a merry Christmas is service human, intelligent service, to one another every day in the year.

So at this time of the year when we celebrate the birth of the One who made it possible for us to live and to extend a merry Christmas greeting, we are happy in wishing for the readers of The Breckenridge News, the very merriest Christmas possible. One that will be filled with contentment and the joy of service. Not only Christmas, but may the days that follow find us extending the same greeting that makes for happiness so much at this time of the year.

And now, a right merry Christmas to every one!

In Chicago \$100,000,000 will be spent this year for Christmas presents to prove there is a Santa Claus. This sum comes out of the pockets of men and women who expect no material gain for their money, but who have found more pleasure in giving than receiving.

We have devoted a large part of this issue to the children of Breckenridge County in publishing their letters to Santa Claus. It is with pleasure that we do this for our little readers, and we hope that each will find Santa Claus still lives, and is the glorious saint of old who fulfills all of their fond desires.

Fine Christmas weather isn't it?

SIGNS OF CHRISTMAS.

Gettin' on to Christmas, Jes' as though the little rascals An' the kids are bein' good, All my bluffin' understood, And although I know exactly Why they're climbin' on my knee, I confess that they are kissin' All they're wantin' out of me. Now, they're waiting on their mother Like they never did before, An' they're clearing up the table, An' they're sweepin' up the floor, An' although she knows exactly Why these gracious fits occur, She confesses they are smilin' All they're after out of her. Gettin' on to Christmas With its happiness an' fuss, An' the fun of foolin' children Is to have 'em foolin' us. They are on their best behavior They're as good as they can be, An' its great to have 'em squeezin' All they're wantin' out of me. —Detroit Free Press.

IN MEMORY.

In loving memory of Samuel Lee Whitworth. One sad year has passed away since dear Samuel Lee was called home, Dec. 19, 1918. He is gone but not forgotten. Sweetest thoughts shall ever linger. For the one we loved so dearly.

A loved one from us has gone A voice we love is stilled, A place is vacant in our home, Which never can be filled. Can I forget the agonizing hour, When those loved eyes closed, to wake no more. Written by his father and mother.

THE LAND OF CHRISTMAS.

Once upon a time there was a poor little lame boy who had no toys. Tom knew this was true, for one day, at the little boy's house, Tom asked him to bring out his toys, and the little boy answered, "I haven't any toys." Tom could hardly believe that there was anybody in the world without even one toy, so he went home and told little sister about it, and together they planned to bring the little boy a toy from the beautiful Land of Christmas.

Mother was willing for them to go, so hand in hand, on the day before Christmas went Tom and little sister. They did not know the way, so they asked a feathery snowflake which came and lighted saucily on the end of Tom's finger.

"Pretty snowflake, while you linger On the tip of my warm finger, Tell me, where's the Land of Christmas?"

And it answered, Oh, so softly: "Little boy and girl, politely Ask the tree that shines so brightly If you seek the Land of Christmas."

The children continued their journey, and at last they arrived at the great tree all shining brightly across the white snow. When the children asked the way to Christmas Land, thus the shining tree responded:

"Step into my trunk so hollow, Take the Magic Wand, and follow The Shining Path to Christmas. So they stepped into the hollow trunk, where they found the magic wands. Tom chose a silver wand with a star at the end of it, and Little Sister a golden one, with a white dove at its end.

When the children stepped out of the tree, they were surprised to find themselves grow very small indeed. And this they noticed if the magic wands were held aloft, the children remained small, but if the wands were lowered, the children grew large again.

The children knew that in the Land of Magic they must obey all the great commands, so they started down the Shining Path, holding their magic wands high in the air. They journeyed on and on and at last they reached a great wall, and when they looked up they saw beautiful lights which spelled the words "Christmas Land" over the tiny gateway!

Tom reached up and pulled the bell-rope, and out upon the frosty air rang the sweetest chimes you ever heard. Soon the tiny gates opened and Tom and Little Sister were glad that they were small enough to slip through! And oh, such a beautiful land as it was! Every tree was a Christmas tree all laden with Christmas gifts. The music boxes were playing, the horns were tooting, the dolls were saying "Mamma" and "Papa," the Jacks-in-the-box were jumping out then hiding again, and everything seemed to be saying, "Take me! Take me!" It was hard for the children to select just one toy for their little friend.

They skipped about for a long time, examining the toys. Finally, on the top branch of one of the tallest trees, there hung a box tied with a big red bow. On one side were printed the words "Magic Lantern."

"The very thing!" said Tom, but how could he bring down the box from the top of a tree so tall—for, as you remember, the children were very small. Just then a little breeze whispered in Tom's ear:

"Little faries, tell me why I see you sit so still and sigh; I will get the box for you!" Then the little breeze blew into a strong breeze and flew into the top of the tree. There he tugged and pulled and puffed, until at last the string had to let go and down fell the box, red bow and all, into a soft bank of snow. The children were over-joyed when the box containing the magic lantern was safe in their hands!

Then they went back along the Shining Path, and very soon reached the great Shining Tree. Into its hollow trunk they went, and left the magic wands, and as soon as they stepped out into the daylight again, they found themselves as large as ever. They ran on and on, until they finally reached the little boy's window. The setting sun was painting everything red and orange and gold, and when they peeped in, there lay the poor boy on his little cot, and his empty stocking hung from the back of a chair.

The chair stood near the window, and on the note that was pinned to the stocking Tom read the words "Dear Santa Claus: If you should happen to have just one toy to spare for me, won't you please leave me a magic lantern?"

Tom softly opened the window and placed the box with its precious toy on the chair near the empty stocking. Then the children slipped away to their home, where they told Mother their secret.

And all would have gone well, of the lantern had not been a magic lantern, for in some way it had taken a picture of Tom, and another of Little Sister. So the next morning the happy little boy hat in his chair opposite the screen which his poor, hard-working mother had put up. Together they watched eagerly for the first picture.

And would you believe it, that tell-tale machine showed, first, Tom's smiling face, and then Little Sister's dimpled one!

JEWELRY

The Gift That's Sure to Please Anyone

The most fastidious person is sure to be pleased with a piece of jewelry for Christmas when nothing else would appeal to them.

We have in stock this year everything that a first class jewelry store carries.

Women are always delighted to have a lasting gift—something they may adorn themselves with, and nothing so answers the purpose as a diamond ring, wrist watch, brooch, bracelet, necklace and chain, and countless small articles in gold or silver.

Men too like certain pieces of jewelry such as a watch and chain, cuff links, cravat pins, charms, belt buckles, etc. Call and see my line.

CHILDREN MEET A REAL SANTA CLAUS

B. F. Beard's Store Scene of a Happy Time for Little Ones of the County.

Santa Claus was met with a glorious reception in Hardinsburg, last Saturday in B. F. Beard & Company's store. He arrived on the noon train, and music greeted him at the station along with the shouts of joy and the bright happy smiles and laughter from an immense crowd of children.

This was not any ordinary looking Santa Claus, but he looked just like his picture—big, round, paunched ruddy cheeks with his fine white whiskers and a smile for everyone. Oh, what a happy time it was for those little ones who got to see this glorious saint in reality. And he presented each child with a small gift from his endless supply of toys.

It is safe to say that these children who came from all parts of Breckinridge county, will never forget last Saturday. And Beard's store in Hardinsburg will never cease to hold a hallowed place in their memories for it was there that they met this rosy, smiling, happy Santa Claus, who is so good to everybody.

THIS MEDICINE HAS CURED THOUSANDS—IT MAY CURE YOU

Mr. L. P. England, a reliable citizen of Spartanburg, S. C., makes the following statement: "About twelve years ago I suffered with a severe spell of malaria and afterward was much troubled with rheumatism. I tried many remedies recommended for the rheumatism but failed to get relief amounting to anything. I saw Number 40 For The Blood advertised and purchased a bottle and found so much relief that I have taken several bottles and am well of the rheumatism. I keep Number 40 in the house all the time as I do not wish to be without it. Number 40 is demanded in blood poisoning from any cause. In chronic rheumatism, catarrh, constipation, stomach and liver troubles. Under its use eczema and skin diseases disappear, sore ulcers and boils are caused to heal. Made by J. C. MUCH GERMAN DYE EXPECTED IN NEW YORK

U. S. Will Get Enough to Relieve Acute Shortage.

The delay that has held up the shipment of German dyes to this country and to the Allies, as provided under the peace treaty, has been ended and sufficient vat dyes to supply the needs of American textile manufacturers may be expected soon, according to a cablegram received yesterday by Dr. Charles H. Herty of the American Chemical Society from Dr. Von Weinberg, head of the German dye cartel, or Interessengemeinschaft. In addition to the share of the dyes coming to America through the Reparation Commission, which is inadequate, the Textile Alliance has ordered for American manufacturers enough to meet the needs here.

The dyes will cover the acute shortage in this country for the next six months, after which it is expected that American dye manufacturers will be in a position to produce vat dyes. Dr. Herty said. Vat dye only is suitable for cotton wash goods.—New York Sun.

MEMORIAL.

Mary Virginia was born December 19, 1910. She was the daughter of Sanford and Cynthia Basmah, and died December 7, 1919, Cloverport, Ky.

The little chair will be vacant Christmas morn. She has gone to live with Jesus where it is Christmas all the time.

Is it a song for a little child, Or a song God only understands? 'Tis not a song of fear or woe— A song of regret that we must die; It is the only song we know. We never question how or why, Earth is beautiful, Heaven is wide, And we are happy for God is good.

A BEAUTY HINT FROM KANSAS

The railways of the United States are more than one-third, nearly one-half, of all the railways of the world. They carry a yearly traffic so much greater than that of any other country that there is really no basis for comparison. Indeed, the traffic of any two nations may be combined, and still it does not approach the commerce of America borne upon American railways.

—United States Census Bureau.

Ask Any Doughboy Who Was "Over There"

and he will tell you that American railroads are the best in the world.

He saw the foreign roads—in England and France, the best in Europe—and in other Continental countries—and he knows.

The part railroads have played in the development of the United States is beyond measure.

American railroads have achieved high standards of public service by far-sighted and courageous investment of capital, and by the constant striving of managers and men for rewards for work well done.

We have the best railroads in the world—we must continue to have the best.

But they must grow.

To the \$20,000,000,000 now invested in our railroads, there will have to be added in the next few years, to keep pace with the nation's business, billions more for additional tracks, stations and terminals, cars and engines, electric power houses and trains, automatic signals, safety devices, the elimination of grade crossings—and for reconstruction and engineering economies that will reduce the cost of transportation.

To attract to the railroads in the future the investment funds of many thrifty citizens, the directing genius of the most capable builders and managers, and the skill and loyalty of the best workmen—in competition with other industries bidding for capital, managers and men—the railroad industry must hold out fair rewards to capital, to managers and to the men.

American railroads will continue to set world standards and adequately serve the Nation's needs if they continue to be built and operated on the American principle of rewards for work well done.

PEPTO-MANGAN FOR PALE SCHOOL CHILDREN

Pepto-Mangan Gives the Help the Body Needs to Make Rich, Red Blood.

Name "Gude's" on Every Pkg.

Sold by Druggists in Both Liquid and Tablet Form—Medicinal Virtues are the Same.

The lessons are hard and the children are growing. Watch their health and if they become pale and listless and don't want to work or play, consult a good physician at once if you suspect any serious ailment. The splendid tonic, Pepto-Mangan, if given daily for a few weeks, will in most cases restore the strength and start the young folks on the road to good health again. Youth responds quickly. You can buy Pepto-Mangan in tablet or liquid form of your druggist and can always be sure of the genuine by looking for the name "Gude's" on the package. Without the name "Gude's" it is not Pepto-Mangan. It is a fine tonic and blood-maker for the whole family. Physicians everywhere have used it for nearly thirty years.—Advertisement.

MUST PAY FOR PAPER IS RULING OF THE COURT.

During the last term of the Circuit Court at Atchison county, Mo., the case of H. F. Staple vs. Charles Traub was tried. The suit was brought on a long standing account, and among other items was sixteen years' subscription for the Atchison County Mail. Mr. Traub refused to pay for the Mail, claiming he did not take the paper, and that he had refused to take the paper from the post office and mail box a number of times. The plaintiff proved by postmasters and others that Mr. Traub did take the paper during all the sixteen years. In the case it was shown that, according to law, even if a subscriber does occasionally order a newspaper discontinued or refuse to accept it, he cannot get out of paying for what he owes the paper, and the subscriber must pay the arrearage before stopping the paper.

The jury in this case was out only a short time and brought in a verdict for the entire account, including the subscription for the Mail—sixteen years at \$1.50 a year, or \$24. The costs in the justice court and the Circuit Court amounted to about \$100, besides the attorney's fees. A similar case has been decided by the Court of Appeals, and it was held in that case that any one taking a newspaper must pay for it as long as he takes it from the post office.—Exchange.

HONOR THE HEROIC HORSES.

We must not forget the part the horse played in the great war, says the New York Herald. To the horses in the world conflict, living and dead, is due unstinted praise. To them the victorious nations should erect a monument of unexampled beauty as a memorial of the sacrifices and sufferings of those who could only express their loyalty and devotion to duty by dumb obedience.

The hero horses of the great war gave their lives for our service. They faced shot and shell and "in the shock of battle fell" All honor to their memory!—Dumb Animal Magazine.

COMMERCIAL ALCOHOL EXTRACTED FROM COKE.

Middlesborough, England, Dec. 16.—It is announced here that a local engineer has succeeded in extracting commercial alcohol and its derivatives is applied to all the coal carbonized from coke. It is claimed that if the process, which requires the use of gas in Great Britain an estimated yield of 50,000,000 gallons of motor spirits will be obtained annually, revolutionizing the supply and cost of liquid fuel.

THOROUGHBREDS PROVE STRONGER

GREAT WAR TAUGHT IMPORTANCE OF BREEDING OF HORSES.

RACING ENCOURAGED ABROAD

Nations Who Bore Brunt of Conflict Maintained the Sport as Much as Possible as Matter of Sound Policy in Its Relation to National Defense.

At no time in the course of the last five years, not even while the great war was at its height, did the Central Empires stop the racing of thoroughbred horses. The great tracks at Hamburg, Baden Post, Vienna and Berlin were the scenes of brilliant gatherings, even when the Grand Duke Nicholas was threatening East Prussia with invasion and Brusilov was on the edge of the plains of Hungary with his wild Cossack riders. At no time during the course of the great war were American and English trainers and jockeys, who had been caught by the declaration of war in Germany and Austria-Hungary and were unable to obtain passports, interned. They were permitted by governments their governments were seeking to destroy to pursue their accustomed callings unmolested and unrestrained.

To a certain extent racing was curtailed in Great Britain during the first two years of the great war. The use of the famous Epsom Downs course as a resting place for convalescing soldiers necessitated the running of the famous British Derby at Newmarket in 1914, 1915, 1916, 1917 and 1918. The preoccupation of the sportsmen of Great Britain in the business of war caused them, to a certain extent, to neglect the thoroughbred sales of 1913, 1916 and 1917, and Americans were enabled to slip in and buy up a lot of first-class stallions and mares with which to enrich the American thoroughbred industry.

France Alone Stops Racing.

Of the great nations participating in the great war, France alone felt the necessity of stopping horse racing. Threatened with utter destruction in a flood of Teutonic barbarism, France had to send to the fighting lines on the Marne, the Somme, the Aisne about Verdun, in the Vosges, every male Frenchman capable of bearing arms. Back of the fighting lines she had to mobilize the elderly men with the women and children for the imperative work of making munitions. Upon France alone fell the burden of resisting the German tide for upward of two years. Throughout the course of the war speed tests were held at the great French tracks, but not as public spectacles. But there was no letting down of the horse as regards the exportation from France of thoroughbred blood any time during the war. As a special consideration citizens of the United States, a country from which the French, from the very beginning of the war, were drawing enormous quantities of military material, who had thoroughbred studs in France, such men as John Smarfit, of Amsterdam, Major August Belmont, Joseph E. Widener and Thomas P. Thorne, were permitted, when transportation was available, to ship to the United States a limited number of thoroughbred yearlings. No matured thoroughbred stallions or mares were allowed to leave the country, whether their owners were Frenchmen or outsiders.

With the signing of the armistice France and England resumed racing with characteristic enthusiasm. The attendance at the race tracks about Paris has been greater this season than in any for the period of half a dozen years preceding the outbreak of the great war. The crowds that witnessed the running of the Derby, the Oaks, the Ascot Gold Cup, the Leger, etc., in Great Britain, were greater by the thousands than the greatest of ante-hellum race track gatherings.

Sport Encouraged in Europe.

In France and Great Britain the patronage of horse racing, by the public, has the highest government encouragement now as the support of racing had in Germany and Austria-Hungary even through the dark months when human beings were finding it difficult to obtain nourishing food. France and England recognize today as Germany and Austria-Hungary have for many days the indispensibility of thoroughbred blood to national defense and necessity of thoroughbred horse racing for the maintenance at its highest efficiency of thoroughbred blood.

FORDSVILLE PLANING MILL COMPANY

JAKE WILSON, Manager
FORDSVILLE, KENTUCKY

For upward of seventy years previous to the beginning of the great war the military governments of continental Europe had been maintaining thoroughbred studs for the production of military horses, an earlier century of experimentation having demonstrated to the satisfaction of experts that it was the horse that boasted of the greatest proportion of thoroughbred blood that showed the highest efficiency in military service, whether as a trooper's mount, an artillery horse or a part of the transport service. The great war had not progressed two years before British and French specialists discovered that the life of the pure thoroughbred under the grueling conditions of war, independently of casualties, was twenty-five days, while that of the three-quarter bred was 20 to 22, of the half bred 17, of the trotter 14 and of the lesser breeds of horses of no particular breed 5 to 7.

English Learn Their Lesson.

Previous to the war of the nations the British government had left the production of horses for the army to private enterprise. The British had merely muddled along, as is their habit in most things. The difficulty the war office experienced in equipping with suitable horses the country, transport and artillery services of the tremendous armies that were being assembled in France in 1916 and 1917, under Haig, convinced the rulers of the British Empire that the old haphazard scheme would not answer in future. The British Parliament was therefore constrained to accept the 1917 Major Hall Walker's generous offer of his entire thoroughbred stud as the nucleus of a great Imperial Military Horse Breeding establishment and to employ Lord Louisa to manage and race the produce of that establishment on the tracks of Great Britain for purposes of elimination as the Imperial German government had employed various schemes of German royalty to race the produce of the national studs of Gruditz and Trekmenn for thirty-five or forty years before the outbreak of the great war.

The munificence of Major Walker's gift to his country will be understood when it is realized that his stud had been taxed on a valuation of upward of \$5,000,000. Now that the war is over Parliament is beginning to appropriate vast sums annually for the maintenance of this Imperial horse breeding establishment after the manner such establishments had been maintained in France, Germany, Austria-Hungary and Italy for half a century before the German invasion of Belgium. To promote the quick production of quantities of horses of thoroughbred, three-quarterbred and half bred types, this establishment is preparing to give direct support to the Canadian National Bureau of Breeding, which was established some seven or eight years prior to 1914, and which supplied the Canadian and British forces with thousands of splendid half breeds, and to create subsidiary branches in Australia, New Zealand, South Africa and India.—Advt.

ROAD WORK STOPS DURING HOLIDAYS

Engineers and Surveyors Are Scattered to Their Homes. 3 Lines Made at Hites Run.

The Federal survey party laid off work Monday on the survey until Jan. 2nd, when it will be resumed. The men who are engaged in the work will go to their homes to spend the Christmas holidays.

About 90 miles of the proposed route has been made, and it was expected that the route would have been completed to this city this week.

In the Cloverport and Hardinsburg district the men are experiencing the hardest work they have encountered in all the survey of the route this far. Three lines have been run in the Hites Run section. The first line went down the ridge by Smart's, and a 16 ft. fill had to be made over to Hites Run; the middle one was not much better, and Monday the engineers crossed over the pike and found a route which is more practical.

After the holidays work will be resumed, and after Hancock county is passed, the work will progress faster.

ABOUT PEOPLE.

Mrs. Emma Blythe, who is living with her son, Mr. John Blythe, and Mrs. Blythe on the Hill, fell Tuesday morning and dislocated her hip. Dr. John Kinchloe, of Hardinsburg, was called immediately and it is not known how serious her condition may be. She is 93 years old.

Mrs. A. A. Simons slipped and fell at her home with Mrs. A. R. Fisher, on Sunday afternoon and broke her right arm between the elbow and wrist.

Mr. Henderson Johnson, of Hancock county and whose home is near here, is reported to be seriously ill with pneumonia. Mr. Johnson is a coal man, and is well known in this city where he has sold many a load of coal.

The condition of Mr. Allen Black has been more serious in the last few days. Friends have been with him day and night assisting Mrs. Black with the nursing owing to her husband's precarious condition.

Mrs. J. Raleigh Meador, of Hardinsburg, is very ill at her home in that city.

MOVED TO AXTEL.

Mr. Joe Paston has moved his residence from Roff, to Axtel, Ky., making the change last week. In requesting the change of address for The Breckenridge News, Mr. Paston added that he appreciated the News and could hardly wait for it to come every week.

Little Dorothy June Cain expects to spend the Christmas holidays in Louisville, with Miss Mollie Clarkson.

Laura Stith Chapter No. 75 had a call meeting Thursday and initiated seven candidates into the order. They were Mr. and Mrs. Robert Carman, Mrs. Pate Dooley, Mrs. Thos. Wilson, Misses Fannie Miller, Mary Louise Hardaway and Ella Wilson. Dainty refreshments were served.

Mr. and Mrs. Carl M. Compton, were dinner guests Sunday of Mr. and Mrs. Ernest Dowell.

Paul Hardaway, Brandenburg, came Sunday to visit relatives during Mrs. Hardaway's visit for the winter at Miami, Fla.

Miss Laura Mell Stith spent Tuesday with Mrs. D. C. Heron.

Edgar Hardaway spent several days recently in Indiana on business.

R. M. Stith, of Nashville, is here for the holidays.

Rev. Porter, of Louisville, filled his regular appointment here Saturday and Sunday.

Geo. R. Compton and Guy Bandy were in Hardinsburg, Wednesday on business.

Mr. and Mrs. Howard Pate spent Wednesday at Basin Springs with her parents, Mr. and Mrs. Dave Wilson.

Dora McGhee (colored) is the champion turkey raiser in this neighborhood. She sold three turkeys that brought her \$13.76. Who can beat it?

Mr. and Mrs. W. J. Stith, Mary and Adah V. Stith, were dinner guests Wednesday of Mrs. Forest Stith of Irvington.

BAPTIST CHURCH SERVICE.

Rev. M. M. McFarland, of Evansville, it is announced, will preach at the Baptist church in this city on Sunday morning and evening, December 28.

An Endless Chain.

"We're very unsettled in our flat," said the worried-looking man at the club.

"What's the trouble?" asked his friend.

"Well, our children keep the next-door neighbors awake, so they pass the time by playing the piano; that makes the pet dog next door to them bark, and that keeps the children next door awake, and there's so much noise through the building that there's no chance at all of our children going to sleep."

The Jazz Spirit.

Wuvery-Gerty Glddind is crazy over jazz music.

"Yes, I learned that when I took her on a sight-seeing trip, through the biggest boiler shop in town the other day."

"I don't get the connection."

"As soon as we entered the door and Gerty heard the terrific din she grabbed my arm and said, 'Gee, let's teage.'"

Little Filipino Girls Helping to Do the Family Washing

Their laundering methods are native Philippine, but their smile is pure American, learned along with a lot of other American tricks from missionaries from the United States. Playgrounds, games and toys have been exported by the States to the Philippine children as fitting accompaniments to school and Sunday school, and so it is that Uncle Sam has become a veritable Santa Claus; and a missionary is a flesh-and-blood Prince Charming in the eyes of the youthful Filipinos. In order to develop the work of educating and Christianizing the people of the Philippines, as well as other important social and spiritual activities, the Episcopal Church will launch a Nation-wide Campaign for \$48,000,000 and 1,600 new workers on December 7.

Reduced His Consult.

He was eaten up with a mistaken consciousness of his own importance, and when he was making his speech in the Middlecombe mock parliament he noted that one of the best dressed men appeared to be sketching him. When the house adjourned he button-holed the artist.

"I believe—now—you were—now—sketching me; isn't that so?" he inquired.

"That is so," replied the artist.

"Well—now—would you tell me what newspaper you—now—represent?"

"I represent no newspaper," answered the artist. "I design comic postcards."

Warblers of All Colors.

Not taking into account the human beings who are sometimes referred to as warblers, you will find on looking into a bird book that there are many kinds of warblers, ranging alphabetically all the way from gray-breasted warblers to yellow-rumped warblers, says the American Forestry association, Washington.

If you had a collection of them all together they would take in about all the colors of the rainbow, yellow, orange, chestnut, black, white, green, gray, brown and other colors, with numerous shades entering into their beautiful plumage.

High Temperature May Mislead.

High temperature does not always mean fever, for the body heat may be increased by exercise or eating, and a rise of as much as 1.3 degrees Fahrenheit has been traced to mental work. Dr. F. B. Wynn of Indianapolis reports that drifted men before examination showed an average rise of 0.3 degrees from the anxiety and suspense, with a corresponding depression below normal after examination. In 40 nurses the fall after examination averaged 0.6 degrees. The psychic rise plus the daily elevation may lead to false conclusions if the physician is not careful.

CHINESE WOMEN HAVE FINANCIAL ABILITY.

They Carried Y. W. C. A. Campaign "Over the Top."

Much has been said about the honesty and skill of the Chinese business men. The world has neglected to mention the financial ability of Chinese women. They proved this ability in the last financial campaign of the Y. W. C. A. in Pientsin.

Ordinarily three weeks are allowed in which to raise the budget by subscription after the finance committee has decided upon the sum necessary to carry on the work of the coming year. The Pientsin campaign was carried on entirely by Chinese women and broke all records by going over the top in ten days with a large surplus over the budget.

World's Largest Vaults.

In the underground vaults of the new United States assay office, the cornerstone of which was laid recently in New York, can be stored more than \$20,000,000,000 in gold. They are said to be the largest and finest in the world, according to Popular Mechanics magazine. Five of the eight stories of the building will be located beneath the surface of the earth. Sealed in the cornerstone of the structure are copies of several newspapers; a medal on which there is a portrait of the president, and a bag containing a set of United States coins ranging in value from one cent to \$20, besides other articles of interest and value. The building will cost over \$800,000.

Dotted Fabric.

Dotted fabric is used more and more. We find lovely frocks of dotted muslin. Occasionally point d'esprit is used, especially as a trimming, when it appears in bands, like insertion, or on the edge of ruffles or tucks, like footing. Then there are dotted Swiss hats and other dotted white fabrics, the dot always self colored, being effectively used for frocks and blouses, trimming, hats and parasols.
